PROFESSIONAL SUMMARY

Information Systems student and junior full-stack developer with hands-on experience building web-based business systems using React, JavaScript, Node.js, Express, and MySQL. Developed AgroTHECK, a deployed business management system, and a Pharmacy Management System featuring role-based workflows, database transactions, and payment integration. Interested in building reliable, maintainable software that solves practical business problems.

TECHNICAL SKILLS

Languages: JavaScript, SQL, HTML5, CSS3

Frontend: React, Vite, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT authentication, bcrypt

Database: MySQL, relational database design, normalization, ACID transactions

Tools & Deployment: Git, GitHub, Postman, Vercel, Render, XAMPP

PROJECT EXPERIENCE

AgroTHECK — Business Management System | *Client Project, Deployed*

- Built and deployed a business management system for day-to-day operations, including inventory, purchasing, sales, customers, expenses, and equipment assets.
- Implemented Admin and Cashier workflows, with sales updating inventory and support for customer debt and payment records.
- Developed business reporting for sales, costs, expenses, inventory value, cash position, and profit/loss visibility.
- Worked with a React frontend, Node.js/Express backend, and MySQL database; deployed the application for business use.

Pharmacy Management System | *Academic Project*

- Developed an academic pharmacy management application covering medicine inventory and role-based workflows for administrators, managers, doctors, pharmacists, and patients.
- Implemented a prescription/ticket verification flow in which the pharmacist verifies the ticket and adds medicine pricing before the patient proceeds to payment.
- Used React, Node.js/Express, MySQL, JWT, and bcrypt; worked with database transactions to help maintain consistency in order and payment-related operations.
- Integrated Chapa payment initialization into the payment workflow.

EDUCATION

Injibara University — Information Systems

Expected to graduate soon
